

Find attached below CCT's responses to the document "Consultation on the Market Analysis of Wholesale Call and SMS Termination on Individual Fixed and Mobile Networks, Part II":

Section 6. Other Matters Raised by the Operators – FIWI

We are in agreement with the decision made by the TRC on this matter, i.e., the termination rate to be applied is a Mobile Termination Rate, since the network used to provide service is entirely mobile network.

Section 9. Proposed Fixed Termination Rate

CCT is in agreement with the decision made by the TRC to set up a Fixed Termination Rate of 1 cent a minute, for the reasons explained in the document

Section 9. Proposed Mobile Termination Rate

Although CCT had proposed to also reduce the MTR, we support the TRC's decision to leave it at the same price level it is today for the initial 2 year period, with the objective of reducing it in the future in line with Caribbean benchmarks.

Best regards,

José Luis Fernández
General Manager
