TRC donates to FSN; gives back to the Community

27 August, 2016 – On Friday, August 26, 2016 the Telecommunications Regulatory Commission (TRC) donated a much needed supply of food items to the Family Support Network (FSN) as a part of giving back to the community. The items donated were accumulated under an internal food drive put on by the organization which generated strong support from staff members, inclusive of an undisclosed monetary donation.

Recently, the FSN highlighted some of the challenges being faced, one of which was that persons were being turned away due to insufficient supplies on-hand. In light of this, the TRC saw it fit to lend a helping hand. In doing so, the staff forfeited their quarterly staff social and focused on giving back to the community by supporting the FSN.

Chief Executive Officer of the TRC, Mr. Guy L. Malone stated that he was elated to assist the FSN in this endeavor. He further stated that it was certainly a proud moment for the staff to come together for the betterment of the community in this way.

The TRC went on to thank the FSN for the work it has been doing throughout the BVI and said it looks forward to working with the non-governmental organization in the future.
